PROJECTS

My Portfolio

- My Portfolio project, created using HTML and CSS, will showcase a visually appealing collection of my work and skills.

- It will feature a clean and modern design with smooth navigation for easy access to different sections.

Netflix Clone

- This project involves creating a clone of the Netflix homepage using HTML and CSS.

- The objective is to replicate the layout, design, and functionality of the original Netflix page to provide users with a familiar browsing experience.

Responsive login page

- This project involves the creation of a responsive login page using HTML and CSS.

- The login page is designed to provide users with a simple and intuitive interface for accessing their accounts securely.
